GUN 240481 Poll Merino Ram – \$10,000
Purchased by Chris Prime, Nantoura Poll Merino Stud

WELCOME TO: **GUNALLO IN 2026**

Following a challenging drought in 2025, the 2026 season has opened with early rains and is shaping up to be one of the strongest in recent memory. **The sheep are responding well to the improved conditions, a clear reflection of the resilience and adaptability built into the Gunallo breeding program.**

That resilience is no accident. It is the result of a **long-term focus on breeding sheep that perform consistently across all environments.** Year after year, our sheep continue to deliver, maintaining wool quality, structural integrity, fertility and strong commercial return regardless of seasonal conditions.

The favourable start to the season has also allowed **this year's sale team to fully express their genetic potential.**

We believe the 2026 offering is one of the most balanced selections we have presented, combining productive dual-purpose performance with the constitution, growth and wool quality our clients have come to expect.

To our existing clients, thank you for your continued support and confidence in Gunallo genetics. To those visiting for the first time, we look forward to welcoming you throughout the show circuit and at **our 47th Annual On-Property Sale,** where you will have the opportunity **to inspect a team of rams bred to perform not just in a good season, but in every season.**

2025 IN REVIEW

The 2025 season was another encouraging year for the stud, highlighted by strong commercial support and growing interest in Gunallo genetics.

The continued demand from both commercial producers and fellow stud breeders reinforces the confidence producers have in balanced, functional Gunallo sheep.

● ON PROPERTY SALE:

85 rams sold

Average: \$1,706

Top Price: \$5,500

Purchased by: McPiggery

● CLASSINGS CLASSIC

9 rams sold

Average: \$4,666

Top Price: \$10,000

Purchased by: Nantoura
Poll Merino Stud

● GENETICS NEW REACH:

A major milestone during 2025 was the successful **export of semen from Gunallo 240674 to Argentina**, increasing the international recognition of our breeding program.

BREEDING PHILOSOPHY:

CONSISTENCY. BALANCE. LONGEVITY.

We focus on **producing productive dual-purpose Poll Merinos** that consistently deliver value throughout their working life. At Gunallo we breed sheep that:

Produce long-stapled, bright white wool while maintaining fleece weight

Stand on large frames with excellent constitution

Mature early and maintain high fertility. Gudair® vaccinated.

Come from mules-free genetics for improved welfare and easier management

FOCUS FOR 2026

THIS YEAR'S BREEDING PROGRAM HAS CONCENTRATED ON:

- Improving structural correctness
- Increasing constitution and resilience
- Driving early growth
- Building fat cover and Eye Muscle Depth (EMD)
- Maintaining premium wool quality

GUNALLO ACCREDITATIONS

- Ovine Brucellosis Free (MN3 Status)
- SheepMAP Accredited
- MerinoSelect ASBVs
- National Johne's Disease Program
- Gudair® Vaccinated

ADVISOR BILL WALKER SUMMED IT UP WELL:

“Gunallo is producing Merino’s that will carry producers through the tough years – & help them rebuild in the better ones. Careful selection & utilization of external genetics as well as the stud’s ever increasing list of proven performers, (narrowed down by trait leading ASBVs), sees this stud in absolute top shape.”
